UI/UX Designer with hands-on experience in designing user-centered web and mobile applications. Skilled in user research, information architecture, wireframing, and prototyping, with a strong focus on solving real user problems and improving usability. Passionate about creating intuitive and impactful digital experiences.

EXPERIENCE

UI/UX Designer (Virtual Internship) - BOSSHIRE	Feb 2026
- Developed research plan and selected appropriate methods to evaluate website usability - Conducted competitor analysis to identify improvement opportunities and design gaps - Generated insights and actionable recommendations to enhance platform performance - Created information architecture and user flows to improve user journey clarity - Redesigned website through wireframes, mockups, interactive prototypes using Figma	
UI/UX Designer (Virtual Internship) - NoDokter	Jan 2026
- Defined research goals and selected suitable methodologies to support product evaluation - Identified usability issues and optimization opportunities through competitor analysis - Generated insights to improve overall user experience and inform design decisions - Designed information architecture and user flows to enhance navigation and usability - Developed interactive prototypes to support website redesign and validate solutions	

PROJECTS

MOREEN – Beginner Mountain Hiking Guide (Web & Mobile App) (Final Project)	2024
- Conducted user research to identify the needs and pain points of beginner hikers in trip preparation and safety - Developed user personas, user flows, and information architecture to enhance user experience - Designed wireframes and high-fidelity UI for both mobile and web platforms - Created interactive prototypes to validate design solutions and improve usability - Designed key features including trail discovery, gear checklist, first aid guidance, survival tips, online ticket booking - Simplified complex information into intuitive and user-friendly interfaces to improve user understanding Tools: Figma, FigJam, Miro	

EDUCATION

University of Technology Yogyakarta	2021 - 2025
Bachelor of Informatics Engineering	
GPA 3.31 out of 4.00	

CERTIFICATIONS

- Fundamental UI Design** - Coding Studio (2025)
- Fundamental UX Design** - Coding Studio (2025)
- UX Research: Data Analysis & Reporting** - Dibimbing (2025)
- Design System for UI Design** - Dibimbing (2026)
- Prototyping** - Dibimbing (2026)
- Understanding Product** - Dibimbing (2026)

SKILLS

UI/UX Skills: User Research, Information Architecture, Wireframing & Prototyping, Usability Testing, Interaction Design
Tools: Figma, FigJam, Miro, Notion, Maze
Tech: HTML, CSS, JavaScript (Basic)

ORGANIZATIONAL EXPERIENCE

Secretary - MAPALA UTY	2022 - 2023
- Managed organizational documentation, proposals, and reporting to ensure structured and efficient administration - Coordinated internal meetings and maintained structured documentation	
Camera Person /Videographer - KA Media Ministry	2023 - 2024
- Produced visual documentation for worship services and special events - Contributed to social media video production and basic editing - Assisted in equipment preparation and production setup
