I am a dedicated **UI/UX Designer** with strong expertise in Figma and Adobe Photoshop. I create user-centered interfaces that combine visual appeal with functionality, ensuring intuitive and seamless experiences. With a research-driven approach, I transform user needs into effective digital solutions that enhance usability and engagement."

ACADEMIC PROJECTS

MOREEN – Beginner Mountain Hiking Guide App 2024

Full-Stack Developer

- Designed and developed a **web and mobile application** providing comprehensive guidance for beginner mountain hikers in Indonesia.
- Integrated digital hiking ticket booking, equipment checklists, emergency procedures, survival tips, and route recommendations to improve safety and preparedness.
- Built using Flutter (mobile) and Laravel (admin web panel), with a user-friendly UI/UX tailored for novice hikers.
- Led UI/UX research and conducted usability testing, receiving positive feedback from 10+ test users for clarity and usefulness.
- Successfully deployed for simulation use, demonstrating practical feasibility and real-world relevance.
